Plants and animals are living things. Plants need water, sunlight and air to survive. Animals need food, water, air and shelter to survive

Prehistoric Safari

Skills and knowledge to develop:

Living things like dinosaurs, plesiosaurs and pterosaurs lived millions of years ago. A palaeontologist studies fossils of living things from the past. Talk about some of the things that they have observed using simple scientific

After The Dinosaurs

Skills and knowledge to develop:

Birds are the closest living relatives to dinosaurs. During the last Ice Age, sabre-toothed cats, giant ground sloths, mastodons and mammoths lived. These animals are now extinct. We know about these animals from their fossilised or frozen remains and cave paintings. Other reptiles, such as turtles and crocodiles, were alive at the same time as dinosaurs, as well as insects and fish.

Welly Walk
