8th February 2021

Dear Scientia Families,

As you are all aware, I have had to close our year group bubbles across the school several times since January 2021. I understand that this is a worry for all our community so I would like to remind you all of the self-isolation procedures and what measures need to be in place to keep us all as safe as possible.

If any member of your family shows any symptoms of Covid-19, the whole family **MUST self-isolate immediately and arrange tests - please do not send children to school even if they do not have any symptoms.**

Please do not invite or allow social visitors to enter your home including friends and family until the end of the self-isolation period.

- The risk of spread is greatest when people are close to each other and when people spend a lot of time together.
- Spend as little time in shared spaces, such as kitchens, bathrooms and sitting areas.
- Social distancing, washing your hands, cleaning surfaces and keeping indoor spaces well ventilated are the most important ways to reduce the spread of COVID-19.

In school we continue to follow all this advice and have an increased hygiene regime, well ventilated classrooms and stay in our bubbles throughout the day.

Thank you for your understanding and support throughout this time, we are always available to talk through the advice and answer any questions you may have.

Please keep yourselves and your families safe we are all working together to protect our children.

Kindest Regards

Helen Bye
