

Geography- Locating Continents

Locate the world's seven continents on a world map and identify some countries and continents that are home to different species of big cat. Explore the characteristics of one location, including its climate and vegetation, and explore how this help or hinder the survival of the big cat that lives there. Mark the location of their chosen big cat on a world map and write a sentence about the characteristics of its habitat.

Science

What's is Camouflage for?

Children work in teams to find paper butterflies placed in their local environment to learn why camouflage is a useful adaptation for animals.

Can you leap like a frog?

Children investigate features and abilities they have in common with other animals.

What can our hands do?

Children use their hands to do a series of activities that help them discover what they can do with their sense of touch.

What can worm's sense?

Children collect earthworms from their environment then conduct a series of tests to investigate the earthworms' senses.
